EXPERIENCE

Senior Freelance Front End Developer

2013-2015, NYC

2018-Present, Seattle

Web Application Development with an eye for UX/UI using variety of frameworks and libraries. Platform specific mobile or tablet sitelets for a wide array of clients & agencies including Razorfish, TandemSeven, McGarryBowen, Macy's/Bloomingdale's, DraftFCB, Planned Parenthood, Havas Worldwide, Maya Lin Studio, Eyeblaster, Tender Creative LLC, Palm Pictures, Hyperakt. Experience with React, AngularJS, Backbone.js, Meteor, VueJS et al.

Curalate

Front-End Solutions Engineer

2016-2017, Seattle

Debugging, maintaining and implementing applications using both Backbone.js and React/Redux for Curalate's client roster.

Macy's

Creative Front End Developer

2009-2012, NYC

Started as a Flash developer but made full crossover to HTML/CSS/JQuery development in branding sites such as Fireworks site (first cross-browser html branding site at Macys.com), Macy's Parade HTML5 tablet-specific site. Facebook sites in tablet such as Holiday Advent Believe, multiple hybrid finders and sitelets. Experience managing, delegating tasks of microsite development and training of a team of freelancers to build finders.
